- FACULTY ADVISOR:** The sponsoring faculty member must submit a one or two page nomination of the student who will work with him/her on the project. This nomination letter should describe the student's role in the research project as well as the faculty member's assessment of the student's academic performance and ability to carry out his/her role in the proposed research project. **PLEASE REMEMBER:** The fact that a student is interested in participating in a faculty member's research project itself is not sufficient to earn a fellowship.
